31st January 2014

Dear Robert

Acceptance of Test Reports carried out by ANC registrants for inclusion in BREEAM and The Code for Sustainable Homes Reports.

We have now completed our ANC annual assessment which included an Examiner audit carried out in May 2013 and an Office audit carried out in December 2013 and we can now conclude that we are satisfied with your corrective action responses.

I will be shortly contacting you to arrange a site witness audit. On behalf of the BRE Group we would like to thank you kind continued assistance.

Yours sincerely

Robbie Scott
Technical Audit Manager
