

# WE ARE HIRING

## Senior Acoustic Consultants Cheshire & Dorset

Sol Acoustics is a dynamic, independent Acoustic Consultancy of 20 years' standing and still going strong, with very clear differences to the norm. Prime among these is our ethos is to give all of our Consultants as much space and freedom to pursue and focus on the technical and commercial elements of their job that they love, without being constantly distracted. This means that unlike almost any other Practice, we do not use timesheets or sales targets.

Our Consultants use only the very latest and best equipment, and our modern, air conditioned offices are equipped with the latest AV and conferencing facilities. Further, the company has a fleet of modern commercial vehicles for use on project work as required. Fundamentally, we believe in motivation and fair remuneration, which includes a generous discretionary bonus scheme for every member of the Team, all as based on the collective performance of the Company (rather than individual "sales and invoicing targets", of which there are none).

We are looking for experienced Senior Acoustic Consultants to join our busy and dynamic Team both in our new office in Sherborne, Dorset and our Head Office in Rudheath, Cheshire.

We are looking for impressive candidates with a minimum of 4 years of experience in Building Acoustics and Environmental Acoustics, with excellent CadnaA skills. A good working knowledge of M&E Acoustics and Noise Control would be an advantage. We require a good Acoustics-related degree or the IOA Diploma, together with exemplary written English skills and standards of bespoke report writing, together with good verbal and presentation skills. A full working knowledge of Office 365 is also a prerequisite.

You will work and project manage a variety of major, diverse projects around the UK and abroad, ranging from award-winning residential schemes to large scale power sector and industrial projects, directly reporting to the Board and supporting junior Team members. Excellent, fast track promotion prospects are available for the right Candidate.

**Competitive Salary + Company Bonus Scheme**
