

## **Job Title:** Acoustic Consultant (Consultant Level, 2+ years' experience)

### **Location:**

Bristol or remote working depending on level of experience.

### **The Role:**

Within the company we aim to provide everyone experience in all aspects of acoustics so the work will be a mix of environmental, architectural and building acoustics projects.

The role will involve undertaking noise impact assessments, providing building acoustic advice, building services advice, environmental noise monitoring, vibration assessments, post construction testing, noise modelling, data analysis and report writing. The role will be based on level of experience, on projects in the fields of Acoustics, Noise and Vibration.

The successful candidate will be required to liaise with clients and independently manage and be responsible for your own projects through to completion and on schedule.

We offer competitive salary, flexible working hours, paid overtime and time off in lieu, the salary and remuneration will reflect the role with the opportunity for the successful candidate to join an established and growing team.

### **Essential:**

- A degree in acoustics / a related subject, or Diploma in Acoustics and Noise Control
- Institute of Acoustics Membership, TechIOA, AMIOA, MIOA.
- A proven record of problem solving, report writing and analysing noise data.
- Ability to manage projects and their time efficiently.
- Full Driving License is required.

*[Email](#) us to learn more and be a part of an established and growing team.*

*Please note we will not be accepting enquiries or CVs from recruitment agencies.*
