ACOUSTIC CONSULTING

Environmental Noise Solutions (ENS) is an independent acoustic consultancy specialising in environmental noise and noise in the built environment.

We undertake projects that include major developments for large residential schemes, mixed use schemes and occasionally international projects in the Middle East.

Our consultants all have a broad range of experience in the environmental and built environment sectors, and who all work to our high standards of delivering the best possible service to our clients in a proactive and responsive manner required by the modern, commercial environment we all work in.

Senior Acoustic Consultants

Looking for that new opportunity? Had enough of the daily commute? Work life balance out of kilter? Would love to work from home full time rather than the odd day? Generating exceptional new business without reward?

ENS is looking for ambitious, smart, knowledgeable, hands-on acousticians. Full time technical positions – with unlimited opportunities for commission-based, sales enhanced earnings - whilst delivering solid, practical quality acoustics to our ever-growing national customer base.

Our bright, dynamic technical team are all less than 40 with a hard-working ethic focused on delivering practical engineering acoustic solutions to our customers.

With a no-nonsense approach to business and with a flat management structure we can offer you the opportunity to flourish in our chosen technical discipline of acoustics.

All candidates will be degree qualified and computer/technology literate with excellent spoken and written communication skills. All candidates are expected to hold a full UK Driving Licence or European equivalent.

Along with the great opportunity to grow within our business we also provide the following employee benefits:

- Permanent Health Insurance.
- Death in Service Benefit (Life Assurance).
- Non-contributory personal pension scheme.
- Paid professional fees (IoA)
- 25 days holiday
- Attendance holiday bonus of up to +3 days per annum.
- Flexible Working.
- Salary Range £35-£50K

In the first instance, please email a CV with covering letter (for the attention of Dave Poulton) to:
