

## **BSI Committee Chair vacancy**

BSI is recruiting a Committee Chair for EH/1/1 Acoustics – hearing.

BSI committee chairs play a critical and rewarding part in the standards-making process. Chairs provide leadership, guide the consensus-building process and help develop and set the committee's work programme. This voluntary position requires a higher level of commitment than the committee member role. Much of the work is done online, with most standards-making groups meeting a few times each year, currently virtually.

The Committee Chair would have the support of a BSI Standards Development Manager to advise on development of the work programme, processes and meeting organisation and support (agenda and minutes).

### **EH/1/1 Acoustics – Hearing**

**Committee Scope:** Under the direction of the EH/1, is responsible for UK input to ISO/TC 43, CEN/TC 211 and CEN/TC 380 for standardisation in the field of hearing

**Some current members:** BSHAA - British Society of Hearing Aid Audiologists; British Society of Audiology; Institute of Acoustics.

### **Key standards in progress:**

- BS ISO 21388-1 Acoustics Hearing aid fitting management. Part 1: General framework
- BS ISO 523 Acoustics -- Methods for calculating loudness. Part 3: Moore-Glasberg-Schlittenlacher method for time varying sounds
- BS ISO 4869-7 Acoustics - Hearing protectors - Part 7: Method to measure the response of hearing protectors with high-level impulse noise on an acoustic test fixture

More information on this committee's work is available [here](#)

If you're interested in applying for the role or would like further information, please contact the Committee's Standards Development Manager, Joanna Macnamara: [joanna.macnamara@bsigroup.com](mailto:joanna.macnamara@bsigroup.com)
