

Robin Mackenzie Partnership

Associate Consultant, Full time, Permanent

We are currently looking for an Associate Acoustic Consultant to join our team in RMP. Since 1997 RMP has been operating as an acoustic consultancy division of Edinburgh Napier University practicing from offices across the UK. We provide expert advice on sound insulation, architectural acoustic design, industrial noise reduction, environmental noise and vibration control to a number of high-profile clients. Our consultants are key to the success of over 600 projects per year including the development of Robust Details and previous flagship projects Dynamic Earth in Edinburgh, the Stirling Prize Winning Magna Centre in Rotherham, and the Scottish Government offices. For more information, please visit www.rmp.biz.

The role

As an Associate Acoustic Consultant, you will be responsible for a range of consulting projects including residential, education, healthcare, and commercial developments. You will undertake sound insulation testing, environmental noise surveys and potentially air tightness testing. You will also assist the consultants in carrying out their consultancy and research on a range of exciting projects across the UK, particularly through the development of acoustic models using software such as CadnaA, ODEON and Insul. There will also be the opportunity to undertake a fully funded IOA diploma and other relevant training as required. This is a great opportunity to work within one of the UK's leading acoustic and energy research and consulting teams.

Who are we looking for?

You will ideally have an undergraduate degree in the following disciplines; Building Engineering, Acoustics, Energy, Environmental Science, however alternative relevant experience will also be considered. You should have previous experience within an acoustic consultancy. As there will be travel included in this post, it is essential you have a full driving licence. To know more about this exciting opportunity please click here to view the role profile.

Benefits we offer

Salary: £26,715 - £31,865 per annum (Grade 4)

In return, we offer a great working environment including flexible home-working, we support ambition, recognise achievement and offer an attractive benefits package. This includes:

- a minimum of 36 days annual leave (includes bank holidays)
- a generous University pension scheme
- professional development opportunities
- discounted access to onsite sports facilities
- a wide range of other staff discounts

Closing Date : 8th September @ 11:59pm - Interviews will take place on 15th September

Please note that the successful candidate must have permission to work in the UK by the start of their employment. We are unable to sponsor any candidate for this role.
