

Robin Mackenzie Partnership

Associate and Consultant positions offered, Full time, Permanent

As part of our continued growth, we are offering Acoustic Consultant and Associate Consultant positions for suitable candidates to join our Edinburgh office team. Since 1997, RMP has been operating as an acoustic consultancy division of Edinburgh Napier University practicing from offices across the UK. We provide expert advice on sound insulation, architectural acoustic design, industrial noise reduction, environmental noise and vibration control to a number of high-profile clients. Our consultants are key to the success of over 600 projects per year including the development of Robust Details and previous flagship projects Dynamic Earth in Edinburgh, the Stirling Prize Winning Magna Centre in Rotherham, and the Scottish Government offices. For more information, please visit www.rmp.biz.

The roles

You will be responsible for a range of consulting projects including residential, education, healthcare, and commercial developments of a scale commensurate of the role. You will undertake building acoustic testing, environmental noise surveys, and potentially air tightness testing. You will work within an experienced team of consultants in carrying out consultancy and research on a range of exciting projects across the UK. This is a great opportunity to work within one of the UK's leading acoustic and energy research and consulting teams.

Who are we looking for?

You will ideally have an undergraduate degree in the following disciplines; Building Engineering, Acoustics, Energy, Environmental Science, however alternative relevant experience will also be considered. You should have previous experience within an acoustic consultancy proportionate to the role. As there will be travel requirements attached to the positions, it is essential that you have a full driving licence.

Benefits we offer

Excellent salary offers as outlined in the role descriptions, and subject to experience. Paid overtime and/or TOIL available.

In return, we offer a great working environment including flexible home-working and we support ambition, recognise achievement, and offer an attractive benefits package. This includes:

- a minimum of 36 days annual leave (including bank holidays)
- a generous University pension scheme
- professional development opportunities
- discounted access to onsite sports facilities
- a wide range of other staff discounts, including Bike to Work Scheme

Closing Date : Tuesday 26th April @ 11:59pm - Interviews will take place w/c 2nd May 2022.

Please note that the successful candidate must have permission to work in the UK by the start of their employment. We are unable to sponsor candidates for the roles.
