

# Robin Mackenzie Partnership

Associate Consultant and Tester positions  
Full time, Permanent

As part of our continued growth, we are now offering Associate Consultant and Acoustic & Air Tightness Tester positions for suitable candidates to join our Edinburgh office team.

Our consultants are key to the success of over 600 projects per year having been involved in flagship projects such as Dynamic Earth in Edinburgh, the Stirling Prize Winning Magna Centre in Rotherham and the Scottish Government offices.

## The Roles:

You will have the opportunity to manage and take part in a range of consulting projects including residential, education, healthcare, and commercial developments. This will allow you to use your knowledge of building acoustic testing, environmental noise surveys and air tightness testing, to work within an experienced team of consultants in carrying out consultancy and research on a range of exciting projects across the UK.

## What do we need from you?

You will ideally have an undergraduate degree in one of the following disciplines; Building Engineering, Acoustics, Energy, Environmental Science, however alternative relevant experience will also be considered.

Previous experience within an acoustic consultancy proportionate to the role will be a requirement. As there will be travel involved with these positions, you will also need a full driving licence.

If you would like to expand your portfolio of work and get involved in some truly exciting projects, please click on the links below to view the role profiles:
