

Junior Acoustic Consultant - Acoustic Consultant - Senior Acoustic Consultant - Principal Acoustic Consultant – Reading Office

ACCON engage in a wide range of acoustics, noise and vibration projects. Recent projects include: developing a noise app to assess noise from street works; building acoustics design for projects in education, health care and office sectors, assessing noise and vibration from road and rail sources for housing developments; assessing vibration from a limestone mine to proposed dwellings above; assessing noise from solar farms; reviewing wind farm noise assessments; and monitoring vibration from demolition and construction. We carry out assessments of noise nuisance, sound insulation assessment and testing, and provide expert advice at Planning Inquiries, Court Hearings etc.

We are currently seeking acoustic consultants at all grades to join our Reading Office. Working as part of our established acoustics team which operates from our Reading and Brighton Offices, the successful candidates will have an excellent opportunity to contribute to both the technical and commercial work of our acoustics business within the UK.

Candidates should have:

- A relevant first degree or post-graduate qualification (e.g. Diploma in Noise & Acoustics);
- Good technical knowledge and report writing skills;
- For Acoustic Consultant, Senior and Principal Acoustic Consultant posts, candidates should have noise modelling experience and corporate membership of the Institute of Acoustics;
- A commensurate level of experience to the relevant position; and
- A full driving license.

We maintain a range of noise and vibration measurement instrumentation and our work is supported by comprehensive noise modelling (using CadnaA) and prediction capability using in-house calculation tools.

Salary is dependent on experience. Benefits include access to a staff pension scheme, annual leave entitlement of 23 days plus Bank Holidays and health insurance. Flexible working arrangements can be discussed. ACCON actively encourages and provides opportunities for continuing professional development.

For further information regarding the vacancies please telephone Graham Parry, Managing Director on 0118 971 0000 or Steve Summers, Associate Director on 01273 573814. For further information about our range of multidisciplinary technical services please visit our website: www.accon-uk.com.

Please apply with a CV and covering letter to graham.parry@accon-uk.com
