## ACOUSTIC CONSULTING

Environmental Noise Solutions (ENS) is an independent acoustic consultancy specialising in noise in the built environment.

We undertake projects that encompass small, local development projects and new school developments through to major developments including large residential developments and hotels.

Our consultants all have a broad range of experience, both in the public and private sector, and who all work to our high standards of delivering the best possible service to our clients in a proactive and responsive manner required by the modern, commercial environment we all work in.

# Graduate Acoustic Consultant (£25K-30K)

We have a vacancy for a graduate acoustic consultant to work within the consultancy division of the company.

The role will involve the assessment of noise and vibration and the provision of suitable advice with regards to the control of noise. Areas of work include noise surveys and assessments for commercial and residential development; control of noise breakout and building acoustics; noise at work assessments; sound insulation tests and general acoustic design issues relating to the built environment.

All candidates are expected to have a degree either in acoustics or a scientific/engineering discipline or, for 1-2 year experienced graduates, practical experience of working within an acoustic consulting or larger engineering company. Candidates who also have an IoA Diploma in Acoustics will also be considered provided they have some previous or current practical experience of acoustics. All candidates are expected to hold a full UK driving licence or European equivalent.

Salary is competitive and commensurate with experience (range: £25,000-£30,000).

We also offer the following employee benefits:

- Permanent Health Insurance.
- Death in Service Benefit (Life Insurance).
- Non-contributory personal pension plan.
- Paid professional fees (IoA, ANC, etc.)
- 25 days holiday
- Attendance holiday bonus of 3 days per annum.
- Company Vehicle.

We have a relaxed but professional working environment and currently employ eight consultants.

In the first instance, please email a CV (for the attention of Dave Poulton) to:

[david.poulton@environmental-noise-solutions.co.uk](mailto:david.poulton@environmental-noise-solutions.co.uk)

We respond to all enquiries.
